Intervenor

J U D G M E N T

By order entered October 10, 2018, the court granted rehearing for the limited purpose of clarifying that its July 27, 2018, opinion in *Sierra Club v. United States Forest Service*, 897 F.3d 582 (4th Cir. 2018), does not vacate the portion of the Bureau of Land Management's Record of Decision authorizing a right of way and temporary use permits for MVP to cross the Weston and Gauley

Bridge Turnpike Trail. The court's opinion otherwise remains in effect.

As previously explained in the court's July 27, 2018, opinion and in accordance with the October 10, 2018, order, the petition for review of the Bureau of Land Management's authorization of a right of way and temporary use permits across the Jefferson National Forest is granted and its decision vacated and remanded, and the petition for review of the Forest Service's Record of Decision is granted and its decision vacated and remanded.

The court's mandate shall issue on October 17, 2018.

/s/ PATRICIA S. CONNOR, CLERK
