Overview

The Pennsylvania Department of Agriculture's Bureau of Farmland Preservation administers programs that keep prime agricultural lands available for production agriculture in perpetuity.

Pennsylvania is a national leader in farmland preservation with 5,462 farms and 562,920 acres protected through permanent agricultural conservation easement. No other state has done more to protect its prime farmland soils for future generations. With a \$135.7 billion total economic impact, public funds used toward easement purchase are a critical investment in Pennsylvania's robust agricultural industry. In addition to the economic benefit, the program assures future food supply for a growing national population. Pennsylvania has some of the most fertile, non-irrigated soils found anywhere in the world. Development pressures threaten prime farmland soils as the economy rebounds and land use challenges prevail. Farmland preservation works in tandem with smart growth concepts and comprehensive planning at the local level.

In 2018, farmland preservation was highlighted by:

- \$53.8 million in state, county and federal funds made available to purchase development rights on working farms;
- 185 farms totaling 14,696 acres preserved;
- State milestone of 550,000 acres preserved in 58 counties, with an event held at Heidel Hollow Farm in Germansville, Lehigh County;
- State milestone of 1,000 municipalities with Agricultural Security Areas;
- \$6.3 million Regional Conservation Partnership Program (RCPP) grant award from USDA's Natural Resources Conservation Service (NRCS) to install best management practices on preserved and applicant farms located in the Chesapeake Bay watershed;
- Preserved Farms Resource Center continuing to carry out its mission to provide professional succession planning services to owners of preserved farms; and
- Recognizing 15 century and seven bicentennial farm families.

Bureau Activities

The bureau provides administrative and technical support to 58 counties that participate in farmland preservation programs and oversees the distribution of funds set aside for preservation purposes. Easement recommendations are reviewed for state board approval and guidance is given to counties, farm owners, local officials and attorneys on issues related to preserved farms. The stewardship responsibilities associated with a now \$1.5 billion public investment are mounting. This trend will continue over time.

In addition to administering the state farmland preservation program, the bureau is tasked with overseeing the Clean and Green preferential tax assessment program, the Ag Security Area program and Century and Bicentennial Farm program.

Farmland preservation and associated programs require extensive outreach to stakeholders and local officials. Public information and training efforts in 2018 are detailed on page four of this report.

Section 14.4 of Act 149 requires the State Agricultural Land Preservation Board to describe all relevant activities of the program for the preceding calendar year in an annual report.

The report covers the activities of the bureau and board from January 1 through December 31, 2018.

Program Implementation

The Pennsylvania Agricultural Conservation Easement Purchase Program was developed in 1988 to help slow the loss of prime farmland to non-agricultural uses. The program enables state, county and local governments to purchase conservation easements – often called development rights – from farm owners. The first easements were purchased in 1989.

Counties participating in the program have appointed agricultural land preservation boards. A state board is responsible for distribution of state funds, and approval and monitoring of county programs, boards, and specific easement purchases.

A farm's first step in becoming preserved is enrolling in an Agricultural Security Area (ASA), which protects the farm against local ordinances and nuisance lawsuits that would affect normal farming activities. ASA designation also provides special consideration in review of farmland condemnation by state and local government agencies. An ASA qualifies land for consideration under the easement purchase program at the landowner's request if the ASA has at least 500 acres enrolled.

In addition to being part of an ASA, farms considered for easement purchase must be in active agricultural use. Farms are evaluated by county officials per soil quality, stewardship, and development pressure. Each farm is ranked and placed on a waiting list per its ranking. Roughly 1,300 eligible farms remain on county backlog lists.

In 2018, the State Agricultural Land Preservation Board met six times to consider individual easement purchases submitted by 43 of the 58 counties participating in the farmland preservation program. The state board approved for purchase 185 easements of various ownership combinations from state, county and local governments, as well as non-profits. Easements totaled 14,696 acres.

Funding

Conservation easements allow property owners to retain title, pass the property to heirs, or sell the property, while still maintaining agricultural use of the land. Many farmers use the proceeds from easement sales to reduce debt loads, expand operations, or to help ensure the transition of the farm to the next generation. Farmers may choose to receive the proceeds from easement sales in a lump sum payment, in installments over a period of five years, or on a long-term installment basis.

The program operates on a calendar year with county governments. The state board is required to set a spending threshold by March 1 of each year. In 2018, the board set this amount at \$37 million and county contributions totaled \$16.3 million. Each county received a grant amount and counties that contributed funds also received match. Along with federal funds, the total investment in farmland preservation for 2018 was \$53,767,619. Dedicated state funding sources include \$25.5 million annually from cigarette taxes and a variable amount of roughly 18.7% of the Environmental Stewardship Fund.

Public Information and Training

Part of the bureau's commitment to protecting the state's farmland from development involves providing county programs with accurate information and resources to submit easement purchases to the State Agricultural Land Preservation Board for approval.

Bureau staff support the 58 counties with approved programs by interpreting legislation, reviewing county program manuals, providing sample documents, meeting with appraisers, reviewing easement documents and offering administrative guidance.

In 2018, the bureau conducted a regional training session for county administrators in Cranberry Township, Butler County, PA. In addition, the bureau conducted individual training sessions for county administrators. The bureau also participated in other meetings conducted by the Pennsylvania Farmland Preservation Association, an organization comprised of county farmland preservation program administrators dedicated to promoting the interests of agricultural land preservation within the state. This outreach helps to ensure that county staff have a comprehensive understanding of the program and strengthens the relationships between bureau staff and those they assist.

PA Farmland, a web-based program, automates and streamlines the process of submitting farms for easement recommendation, saving time and resources, and cutting administrative costs. The bureau is working with the department's Office of Information Technology on phase two of the project to incorporate financial tracking, further reducing paperwork and improving efficiency. In addition, plans are under way to update the Geographic Information Systems (GIS) layer to accurately map preserved farmland.

Bureau staff provided public outreach at the 2018 Pennsylvania Farm Show in Harrisburg, Dauphin County, and Ag Progress Days in Rock Springs, Centre County.

In 2018, the bureau led three Clean and Green program classes for county tax assessors at regional and statewide conferences in Erie, Philadelphia and Gettysburg. In addition, the bureau occasionally attends meetings conducted by the Assessors Association of Pennsylvania's Clean and Green committee and the County Commissioners Association of Pennsylvania.

The bureau instructed a session on Agricultural Security Areas for township officials in Jefferson County. The bureau also presented at the annual county planning director meeting in State College.

Additionally, in 2018, bureau staff met routinely with farmers and stakeholders on topics related to farmland preservation. As the program matures and the number of preserved farms increases the workload has shifted from that of securing purchases to one of protecting an investment. Competing land use interests and a growing population will continue to challenge easements going forward. An example of this is the balance between energy needs and protection of farmland and natural resources. The bureau presented testimony at two public hearings regarding a high-tension powerline project that will impact preserved farmland in Franklin and York Counties. In addition, the bureau presented on eminent domain at the Farm Bureau's annual meeting in Hershey.

Regional Conservation Partnership Program

The bureau was awarded a \$6.3 million Regional Conservation Partnership Program (RCPP) contract from USDA-NRCS in 2018 to install best management practices on farms in the Chesapeake Bay watershed. The grant uses state and county farmland preservation investments as the required match. The primary focus area includes Adams, Cumberland, Dauphin, Franklin, Perry and York Counties – with intent to include additional counties in the future. The grant will prioritize applicants and preserved farm owners based on need and benefits that practices will provide to water quality. Preserved farms are ideal for investing in conservation. The farms will always be available for agriculture and are

required to follow a conservation plan in perpetuity. The grant award validates an important point that working farms with good conservation practices are a benefit to water quality and natural environment.

Preserved Farms Resource Center

The Preserved Farms Resource Center was created in 2015 to assist preserved farm owners with business, succession and transition planning needs. Act 85 of 2016 amended the fiscal code to expand use of Grant Assistance Program funds to include grants of up to \$3,000 each to owners of preserved farms for succession planning. Grant funds may be used for reimbursement on a match basis for costs incurred by applicants. The funds are administered by the bureau. In 2018, there were 13 grants awarded to farm owners totaling \$37,150.

Act 40 of 2019 expands on this effort through creation of the Agriculture Business Development Center, which will absorb the duties of the Preserved Farms Resource Center. The legislation was a key component of the Pennsylvania Farm Bill. The Center will support business planning, marketing, diversification, and transition planning services to Pennsylvania farmers, with a focus on preserved farms. Funds will go toward capacity building and direct grants to farm owners.

Clean and Green Program

The Pennsylvania Farmland and Forest Land Assessment Act of 1974, also known as the Clean and Green Act, or Act 319, protects farmland, forestland and open space by allowing for land taxation per its value as used rather than the prevailing market value. The effect of Clean and Green on the overall farmland preservation effort is widespread, as affordable property taxes are essential to maintaining viable farms. In its 40-year history, the program has been vastly successful in achieving this goal.

Enrolled land is assessed per the income approach to land appraisal – the amount of income the land can produce at its highest and best agricultural use. The trend in recent years has been for the use values to increase. Counties may establish use values that are lower than the department's. The program has widespread participation, with 10.5 million acres enrolled statewide. The average reduction in fair market assessed value for enrollees is roughly 50 percent – providing an incentive to keep the land undeveloped.

The program is voluntary and generally requires a minimum of 10 acres remaining in one of three designated use categories:

- Agricultural use – land used to produce agricultural commodities commercially;
- Agricultural reserve – noncommercial open space land used for recreation and scenic enjoyment that is open to the public free-of-charge; and
- Forest reserve – 10 acres or more of forested land capable of yielding timber or other wood products.

Land removed from its designated category for a non-permitted use is subject to a roll back tax imposed for up to seven years, plus six percent simple interest. Certain land divisions and conveyances are exempt from roll-back penalties if the original use of the land does not change.

County assessment offices administer the program at the county level. The bureau provides for uniform interpretation of the Clean and Green Act among county assessment offices and distributes use values by May 1 of each year. County assessors are required to submit information annually on the extent of Clean and Green Act participation within their counties to the department. To facilitate this process, the department surveys each county on its Clean and Green activity. The findings from this survey are the basis of this report. A copy of the survey form used to gather this information is included in the appendices as Exhibit A.

2018 Clean and Green Survey Results

Administration

The 2018 survey forms were distributed to 67 counties and all responded to the survey. Sixty counties, or 90 percent, participated in the Clean and Green program. Table 8 (appendix) depicts those counties reporting participation in 2018.

Table 9 (appendix) summarizes the statistical data of participation. Counties reported 240,338 parcels enrolled in 2018, covering 10,535,375 acres.

Table 10 (appendix) indicates the acres terminated in each category of eligibility. The most common reasons for termination and removal of enrolled land include a split-off/subdivision between two and 10 acres, a change in use of the enrolled property that is inconsistent with the eligibility requirements, sale of enrolled property for residential development, establishment of a commercial activity not consistent with the allowable rural enterprise, and posting land enrolled in the agriculture reserve category.

Table 11 (appendix) lists the number of applications rejected per county for reasons such as not meeting requirements, too little acreage, late filing, non-conforming use, inability to verify ownership, or failure to show \$2,000 anticipated gross income. It lists the number of violations cited for reasons such as property split-offs, non-conforming subdivisions, change in use, transfer of land, and voluntary rollbacks. Far more applications are accepted each year than rejected. Violations, which result in rollback taxes, are often unavoidable.

Table 12 (appendix) lists the Rollback Tax Summary. It details the dollar amount received as rollback taxes and the dollar amount received as interest on the rollback taxes. Act 319 requires that all the interest received on rollback taxes be added to other local money appropriated by an eligible county for the purchase of agricultural conservation easements. If the county does not participate in the easement program, the interest shall be forwarded to the state agricultural conservation easement purchase fund. The interest on rollback taxes is intended to mitigate loss of farmland as it is used to fund easements purchased through the state farmland preservation program. In some cases, it is the sole source of county funds that are certified to the state for match.

Table 13 (appendix) lists the way Act 319 use values were determined by the responding counties. The county has the option of establishing a base year to calculate the preferential assessment, using the annual department-provided county-specific use values, or determining a lower county-specific use value. Use values may only be updated during a countywide reassessment or if the department's values drop below the values that were established in 2016 (year of a program amendment).

Table 13 also lists how counties assess the forest reserve average values. The department, with assistance from the state Department of Conservation and Natural Resources' Bureau of Forestry, provides values based on the average value of timber in a county and the average value of six timber types.

Federal Agricultural Conservation Easement Program

The federal Agricultural Conservation Easement Program (ACEP) works through existing government programs, including the Bureau of Farmland Preservation, to help preserve prime and unique farmland. The program reimburses land owners up to 50 percent of the fair market easement value. This allows counties to preserve additional farms on their waiting lists that may have otherwise not been preserved with state, county and municipality funding alone.

Since 1996, the Agricultural Conservation Easement Program (formerly known as the Farm and Ranchland Protection Program) has provided nearly \$35 million in funding to the state easement purchase program in Pennsylvania. This funding preserved more than 40,000 acres throughout the commonwealth. In 2018, USDA awarded nearly \$438,250 in reimbursements for two farms totaling 350 acres in two counties.

Century and Bicentennial Farm Programs

Pennsylvania's Century and Bicentennial Farm programs demonstrate the importance of agriculture and the state's rural heritage and emphasize the commitment of Pennsylvania's long-standing farm families to preserving a vital element of our economy.

The Century Farm Program recognizes farms that have been in the same family for 100 years or more. Owners of farms recognized with this designation are presented with a certificate from the Pennsylvania secretary of agriculture. Information supplied by the applicants is filed in the archives of the Pennsylvania Historical and Museum Commission.

The Bicentennial Farm Program was created in 2004 to recognize farms that have been in the same family for 200 years or more. The Bicentennial Farm Program is ruled by similar standards to the Century Farm Program.

In 2018, a total of 15 Century and Bicentennial farms were recognized at several different events, including the Pennsylvania Farm Show and Ag Progress Days. To date, the Department of Agriculture has recognized 2,348 Century and Bicentennial farms. It is unknown how many of those farms remain in the same family since receiving the award.

Grant Programs

Land Trust Reimbursement Grant Program

In addition to the state's Bureau of Farmland Preservation, nonprofit organizations called "land trusts" operate throughout Pennsylvania to ensure land with special natural or public value is not developed. To support this effort and accelerate the state's farmland preservation activity, Act 46 of 2006 established the Land Trust Reimbursement Grant Program.

The grant program authorizes the Pennsylvania Agricultural Land Preservation Board to allocate up to \$200,000 annually from the Agricultural Conservation Easement Purchase Fund for reimbursement of expenses incurred in the acquisition of agricultural conservation easements by land trusts. The grants cover expenses including appraisal, legal services, title searches, document preparation, title insurance, survey and closing fees.

Twenty-four land trusts are registered with the state board. As of December 2018, the board awarded \$2,287,511.59 to 13 land trusts for expenses incurred through the preservation of 35,146 acres. The acreage preserved through this program does not count toward the state total of preserved land and farms.

Easement Program Participation

The remainder of this annual report responds directly to the requirements of Section 14.4 (legislative report) of Act 149 of 1988, the Agricultural Area Security Law. Subsection titles are keyed to the numbered paragraphs of Section 14.4 and contain explanatory text that references tables and graphs included in the appendices.

Agricultural Security Areas

Agricultural Security Areas strengthen and protect quality farmland from the urbanization of rural areas by protecting against local nuisance ordinances related to farming activities and providing oversight in certain cases of eminent domain. Enrollment in an ASA is voluntary, but a prerequisite for applying to the farmland preservation program. The most important step in preserving a farm begins at the local level when the ASA is formed.

The Agricultural Area Security Law, as amended April 13, 1992, P.L. 100, No. 23, provides that the Secretary of Agriculture shall be notified by the governing body within 10 days of the recording of an ASA.

Location

A list of all ASAs known to the department is contained in Table 1 (appendix) ASAs are listed alphabetically by county and township.

As of 2018, exactly 1,000 ASAs have been formed in 65 counties in Pennsylvania.

Number of Acres

In 2018, a total of 4,008,643 acres were enrolled in ASAs across Pennsylvania.

Conservation Easements

Number of Acres

In 2018, 14,696 acres were placed under agricultural conservation easements. A total of 562,920 acres has been placed under agricultural conservation easements in the commonwealth since the program began under the authority of Act 149 of 1988. All the easements have been purchased to protect the land in perpetuity.

Agricultural conservation easements preserved in 2018 are listed in Table 2 (appendix). The second and third columns list the landowner's name and the county where the easement is located.

Number of Easements

To date, 5,462 easements have been purchased in Pennsylvania under the authority of Act 149 of 1988. While other agricultural conservation easements exist in the commonwealth, they have not been purchased under the authority of Act 149 and their existence is not reported to the agriculture department. The reported easements are specifically divided into 1,156 county-owned, 1,785 commonwealth-owned, 2,337 jointly-owned agricultural conservation easements, 118 multi-funded easements and 46 easements funded jointly between a county and non-profit or local municipality

Number and Acres in Each Conservation Easement

Table 2 (appendix) lists the number of, and acres for, each easement purchased during the reporting period. There were 185 easements totaling 14,696 acres purchased in 2018, shown in Table 2 (appendix). There were 148 lump-sum payment purchases, accounting for 80 percent of the easements. Most easement transactions were bargain sales, meaning easements were purchased at less than 100 percent of the appraised easement value.

There were 37 regular installment sales, roughly 20 percent. Most of the installments received no interest, while several regular installment sales averaged one percent.

Number and Value of Easements Purchased

The purchase price of each easement under the program this reporting period is given under column five of Table 2 (appendix). The next two columns of Table 2 present additional costs in acquiring the easements and the "Total Costs" column represents the sum of the three columns.

1. Commonwealth-Owned Conservation Easements

Fifty-seven commonwealth-owned easements were purchased in 2018, covering 4,624 acres with an easement value of \$16,454,430.

2. Joint Commonwealth/County-Owned Conservation Easements

There were 75 state and county jointly-owned easements covering 7,452 acres purchased in 2018. These easements totaled \$21,489,450.

3. Multi-Commonwealth/County/Township-Owned Conservation Easements

In 2017, seven multi-owned easements totaling 542 acres and \$3,808,475 were purchased by the commonwealth, counties and townships.

Participating Counties

All 58 counties with appointed boards and active programs were eligible to participate in the 2018 allocation of funds process and are listed in Table 3 (appendix).

County Annual Appropriation

The 2018 appropriations made by counties are listed under the second column of Table 3 (appendix), totaling \$16,767,619.74. Figure 1 (appendix) shows total county appropriation amounts from 1989-2018.

Characteristics of 2018 Preserved Farmland

Quality of Farmlands Subject to Easement

Data was collected on the soil classification, crop types, acreages and yields, livestock types and numbers for each farm on which an easement was purchased from January 1 – December 31, 2018.

In summary, 14,696 acres of land were placed under easement during this reporting period on 185 farms.

Natural Resources Conservation Service (NRCS) soil classifications of this land are:

- Class I – 735 acres
- Class II – 5,878 acres
- Class III – 4,850 acres
- Class IV – 2,057 acres
- Other Classes (V-VIII; ponds, wetlands or other lands not broken down by county) – 1,176 acres

Soil classes I-IV are well-suited for agricultural production.

A breakdown of the major crops grown on the farms:

- Row Crops – 7,348 acres
- Hayland – 3,891 acres
- Small Grain – 1,826 acres
- Pasture – 1,205 acres

Farms preserved supporting primary livestock operations:

- Dairy – 23 farms

- Beef – 13 farms
- Horses – 5 farms
- Sheep – 1 farms
- Swine – 1 farms

Nature and Scope of Development Activity

The likelihood of development was generally moderate to high in areas where agricultural conservation easements were purchased. These areas were primarily zoned rural residential, agricultural or conservation district. Agricultural zoning occurred in approximately 50 percent of the areas under easement purchase. Public sewer and water is available or is planned in approximately 25 percent of the preserved area.

Conservation Practices on Farms Subject to Easement

The following summary presents the frequency of use of conservation practices and best management practices on farms where conservation easements were purchased in 2018. All the farmers have developed conservation plans for their farms and are in various stages of implementation. Annual inspections conducted by the counties will report on the progress being made by farmers toward implementing their conservation plans. In addition, a growing emphasis is placed on compliance with Pennsylvania Clean Streams Law in that farms must have an Agricultural Erosion and Sedimentation Control Plan and Manure Management Plan.

SUMMARY OF CONSERVATION PRACTICES ON FARMS WITH CONSERVATION EASEMENTS		
CONSERVATION PRACTICES	NUMBER OF FARMS	PERCENT OF TOTAL FARMS w/EASEMENTS
Conservation tillage	138	75
Contour farming	142	77
Crop rotations	131	71
Crop residue use	64	35
Cover crops	150	81
Diversions	12	6
Streambank protection	14	8
Strip-cropping	165	89
Subsurface drainage	2	1
Terraces	17	9
Water control structures	3	2
Waterways	76	41
Animal waste storage	87	47
Nutrient management system	98	53
Pasture and hay land management	145	78

Recommendations for the Purchase of Agricultural Conservation Easements

The total number of recommendations filed this reporting period by counties is the same as the number approved by the state board (185). None were disapproved.

Conclusion

The Farmland Preservation Program has permanently preserved 14,696 acres of agricultural land on 185 farms over the past year. The total cost of this protection in state and county funds was \$53,767,619. The average price per acre was \$2,900. Farmers have requested and gained municipal government approval of agricultural security areas protecting farming on more than 4 million acres of land. Of the 58 participating counties, 55, or 95 percent, appropriated local money for farmland preservation during the 2018 calendar year, amounting to more than \$ 16.8 million.

Pennsylvania's farmland preservation program thrives on partnerships between all levels of government and non-profit organizations and is a national model for success in land conservation. An estimated 1,300 eligible farms remain on county backlog lists for 2018. The mission of the program moving forward will be to continue preserving prime farmland and to safeguard a vast investment made in Pennsylvania agriculture. In addition, supporting programs like Clean and Green and the Agricultural Security Area continue to keep property taxes affordable and protect the rights of participating farm owners.

State Agricultural Land Preservation Board

as of December 31, 2018

The Honorable Russell C. Redding, Chairman and Secretary, Department of Agriculture

**FARMLAND AND FORESTLAND TAX ASSESSMENT
COUNTY SURVEY**

The Pennsylvania Farmland and Forestland Assessment Act of 1972 as amended requires the Pennsylvania Department of Agriculture to promulgate statewide uniform rules and regulations for implementing the act. In order to insure the rules and regulations are fair and consistent with the intent of the act, each County Assessor will provide the Pennsylvania Department of Agriculture with the following information.

Form AA0-91 is to be completed by the county assessor or the authorized representative for the calendar year specified above by **January 31, 2019**. Please provide as much information as possible. Use additional sheets if necessary.

- 1.) Is the act being used in your county? Yes No
- 2.) Total number of landowners participating as of the end of 2018 (cumulative)? _____
- 3.) Total number of parcels enrolled as of the end of 2018 (cumulative)? _____
- 4.) Number of applications rejected during 2018? _____
- 5.) Number of acres terminated in each category (i.e. Ag Use, Ag Reserve, or Forest Reserve) during 2018:
 Ag Use: _____
 Ag Reserve: _____
 Forest Reserve: _____
- 6.) What was the most common reason for termination? _____
- 7.) Total dollar amount received in rollback in 2018? _____
- 8.) Total dollar amount received as interest on rollback in 2018? _____
 Are you an eligible county under the Agricultural Area Security Law? YES NO
 - a. If yes, has ALL rollback interest been appropriated for the purchase of agricultural conservation easements under Section 14.1(h) of Act 43, Agricultural Area Security Law (county participates in Farmland Preservation Program)? _____
 - b. If no, has ALL the rollback interest been forwarded to the State Agricultural Conservation Easement Purchase Fund? _____
- 9.) Total acres enrolled **in each land use category** (cumulative):
Agricultural Use _____ Agricultural Reserve _____
Forest Reserve _____ Total _____
- 10.) What category best describes the Ag Use and Ag Reserve Use Values in your county?
 2018 use values provided by the Commonwealth
 Use values in effect on July 20, 2016 (Act 89)

- 11.) What category best describes the Forest Reserve Use Values in your county?
 2018 use values provided by the Commonwealth
 Use values in effect July 20, 2016 (Act 89)
- 12.) In what year was your county last reassessed? _____
- 13.) How many appeals involving Clean and Green applications or assessments were made to either the Board of Assessment Appeals or to the Court of Common Pleas during 2018?
 Board of Assessment Appeals _____ Court of Common Pleas _____
- 14.) Do you know the difference in the county's assessed value and the value of preferential assessments in 2018? If so, please provide that information.
- 15.) a. County Assessed Value _____
 b. Value of Preferential Assessments _____

Please provide the name, address, and phone number of the current county assessor.

_____	_____
(Printed Name)	(Address)
_____	_____
(Signature)	(City, State, and Zip Code)
_____	_____
(Telephone)	(Email)

- 16.) Please name the person completing this form if other than the county assessor.

_____	_____
(Printed Name)	(Signature)

- 17.) Please provide the main contact person handling Clean & Green questions.

TABLE 7 - LAND TRUST REIMBURSEMENT GRANT PROGRAM

Background: Act 15 of 1999 authorized the State Board to allocate up to \$500,000.00 from the Supplemental Agricultural Conservation Easement Purchase Account for reimbursement grants to be awarded among qualified land trusts. Act 46 of 2006 amended the Agricultural Area Security Law (P.L. 128, No. 43), re-establishing the Land Trust Reimbursement Program by authorizing the State Agricultural Land Preservation Board to allocate \$200,000 per year to the Grant Program. The program will reimburse qualified land trusts up to \$5,000 for expenses incurred in the acquisition of agricultural conservation easements. These expenses include appraisal costs, legal services, title searches, document preparation, title insurance, closing costs, and survey costs.

Objective : To accelerate the Farmland Preservation activity by developing partnerships with Land Trusts.

Status : 02/21/2019 State Board Meeting

Land Trusts registered with the State Board (24):

Adopt An Acre, Inc.
Allegheny Land Trust
Berks County Conservancy
Brandywine Conservancy
Central Pennsylvania Conservancy
Centre County Farmland Trust
Countryside Conservancy
Delaware Highlands Conservancy
Farm and Natural Lands Trust of York County
French and Pickering Creeks Conservation Trust, Inc.
Heritage Conservancy
Lancaster Farmland Trust
Land Conservancy for Southern Chester County
Land Conservancy of Adams County
Lebanon Valley Conservancy, Inc.
Manada Conservancy
Merrill W. Linn Conservancy
Montgomery County Lands Trust
Natural Lands Trust, Inc.
North Branch Land Trust
Pennsbury Land Trusts, Inc.
Pittsburgh History & Landmarks Foundation
Western Pennsylvania Conservancy
Wildlands Conservancy

Application Reimbursements:

Adopt An Acre, Inc.	43 acres	\$9,879.50
Berks County Conservancy	168 acres	\$9,945.30
Brandywine Conservancy	4142 acres	\$266,632.50
Central Pennsylvania Conservancy	849 acres	\$40,981.50
Centre County Farmland Trust	834 acres	\$29,100.74
Delaware Highlands Conservancy	307 acres	\$10,000.00
Farm and Natural Lands Trust of York County	4527 acres	\$241,564.99
Lancaster Farmland Trust	17483 acres	\$1,406,533.99
Land Conservancy of Adams County	6057 acres	\$250,112.60
Lebanon Valley Conservancy, Inc.	416 acres	\$7,689.57
Montgomery County Lands Trust	57 acres	\$4,104.27
Natural Lands Trust	197 acres	\$4,988.78
Wildlands Conservancy	69 acres	\$5,978.00
<u>TOTALS (480 easements)</u>	<u>35,146 ACRES</u>	<u>\$2,287,511.59</u>
