Dear Mr. Hatten:

This is to advise you that the West Virginia Department of Environmental Protection's Division of Water and Waste Management hereby vacates and remands the Section 401 Water Quality Certification issued on March 23, 2017, relating to the applications filed by Mountain Valley Pipeline, LLC (MVP) to construct a natural gas pipeline in West Virginia. This decision will allow the agency to reevaluate the complete application to determine whether the State's certification is in compliance with Section 401 of the federal Clean Water Act.

If you have any questions or concerns, or if you wish to discuss this matter in any particular, please do not hesitate to contact me.

Very truly yours,

Scott G. Mandirola, Director
Division of Water and Waste Management
