10 established, by department rules;

11 (g) if any word, statement, or other information
12 required by or under the authority of this chapter to appear on the
13 label or labeling is not prominently placed thereon with such
14 conspicuousness (as compared with other words, statements,
15 designs, or devices in the labeling) and in such terms as to render
16 it likely to be read and understood by the ordinary individual under
17 customary conditions of purchase and use;

18 (h) if it purports to be or is represented as a food
19 for which a definition and standard of identity has been prescribed
20 by federal regulations or department rules as provided by Section

23 contained in the food; except that spices, flavorings, and colors
24 not required to be certified under Section 721(c) of the federal
25 Act, other than those sold as such, may be designated as spices,

20 in or on the commodity and the common or usual name and the function
21 of the chemical, except that the declaration is not required while
22 the commodity, after removal from the shipping container, is being
23 held or displayed for sale at retail out of the container in
24 accordance with the custom of the trade;

25 (n) if it is a product intended as an ingredient of

15 (ii) if the use of the food is not
16 typically expressed in a serving size, the common household unit of
17 measure that expresses the serving size of the food;

27 size or other unit of measure; and

1 (E) any vitamin, mineral, or other nutrient
2 required to be placed on the label and labeling of food under the
3 federal Act; or

4 (2)(A) if it is a food distributed at retail
5 in bulk display cases, or a food received in bulk containers, unless
6 it has nutrition labeling prescribed by the secretary; and

7 (B) if the secretary determines it is
8 necessary, nutrition labeling will be mandatory for raw fruits,
9 vegetables, and fish, including freshwater or marine finfish,
10 crustaceans, mollusks including shellfish, amphibians, and other
11 forms of aquatic animal life, except that:

12 (3)(A) Subdivisions (1) and (2) do not

27 or

1 (v) that is described in Section 405,
2 clause (2), of the federal Act;

3 (B) Subdivision (1) does not apply to the
4 label of a food if the secretary determines by regulation that
5 compliance with that subdivision is impracticable because the
6 package of the food is too small to comply with the requirements of
7 that subdivision and if the label of that food does not contain any
8 nutrition information;

9 (C) if the secretary determines that a food
10 contains insignificant amounts of all the nutrients required by
11 Subdivision (1) to be listed in the label or labeling of food, the
12 requirements of Subdivision (1) do not apply to the food if the
13 label, labeling, or advertising of the food does not make any claim
14 with respect to the nutritional value of the food, provided that if
15 the secretary determines that a food contains insignificant amounts
16 of more than half the nutrients required by Subdivision (1) to be in
17 the label or labeling of the food, the amounts of those nutrients
18 shall be stated in a simplified form prescribed by the secretary;

23 the requirements of this subsection do not apply to food sold by
24 that person to consumers unless the label or labeling of food
25 offered by that person provides nutrition information or makes a
26 nutrition claim;

27 (E) if foods are subject to Section 411 of

1 the federal Act, the foods shall comply with Subdivisions (1) and
2 (2) in a manner prescribed by the rules; and

3 (F) if food is sold by a food distributor,
4 Subdivisions (1) and (2) do not apply if the food distributor
5 principally sells food to restaurants or other establishments in
6 which food is served for immediate human consumption and the food
7 distributor does not manufacture, process, or repackage the food it
8 sells;

9 (r) if it is a food intended for human consumption and
10 is offered for sale, and a claim is made on the label, labeling, or
11 retail display relating to the nutrient content or a nutritional
12 quality of the food to a specific disease or condition of the human
13 body, except as permitted by Section 403(r) of the federal Act; or

14 (s) if it is a food intended for human consumption and
15 its label, labeling, and retail display do not comply with the
16 requirements of Section 403(r) of the federal Act pertaining to
17 nutrient content and health claims.
