WHEREAS, the Occupational Safety and Health Act of 1970 requires employers to furnish their employees with a place of employment that is "free from recognized hazards that are causing or are likely to cause death or serious physical harm," and employees must also comply with all standards and regulations under the act, and

WHEREAS, the Occupational Safety and Health Administration

Page 1 of 6

(OSHA) was created under the act to ensure safe working conditions for employees by setting and enforcing standards and providing training, outreach, education, and assistance to employers and employees, and

WHEREAS, OSHA standards and regulations apply to most private sector employers and employees, as well as some public sector employers and employees, in all 50 states and certain territories and jurisdictions under federal authority, and

WHEREAS, OSHA has imposed and enforced standards and regulations governing workplace heat exposure for more than two decades and currently creates and publishes best practices, guidance, advice, and educational materials about working in hot environments, and

WHEREAS, recognizing that preventing heat-related illnesses requires education and close collaboration between employers and employees, OSHA established the National Emphasis Program - Outdoor and Indoor Heat-Related Hazards in 2022, to create a targeted enforcement program, reiterate compliance assistance and outreach efforts, and encourage early intervention by employers during high heat working conditions, and

WHEREAS, local governments have started to adopt their own workplace heat exposure requirements, some of which apply only to specific industries, which ignore the individual responsibility of an employee to follow relevant guidelines and to protect himself or herself from heat-related illnesses, and

WHEREAS, OSHA is actively engaged in rulemaking to further expand on its existing standards and regulations for workplace heat exposure, which would preempt local regulations on the subject, and

WHEREAS, having a patchwork of local workplace heat exposure standards and regulations makes compliance difficult and burdensome on employers and employees and may impede commerce throughout the state, and

WHEREAS, based on the potential negative impacts of local regulation on workplace heat exposure, the Legislature finds that the powers of local government in this area must be appropriately limited, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 448.106, Florida Statutes, is created to read:

- 448.106 Workplace heat exposure requirements; preemption; rulemaking.—
 - (1) As used in this section, the term:
- (a) "Contractor" means an employer contracting with, or seeking to contract with, a local government to provide goods or services to, for the benefit of, or on behalf of the local

- (b) "Employee" means a natural person, including a selfemployed person, who receives any type of compensation or remuneration for providing services to an employer.
- (c) "Employer" means a person who hires or contracts for the services of employees.
- (d) "Heat exposure requirement" means a standard mandated or otherwise imposed on employers, employees, contractors, or subcontractors to control an employee's exposure to heat or sun, or to otherwise address or moderate the effects of such exposure. The term includes, but is not limited to, standards relating to all of the following:
 - 1. Employee monitoring and protection.
 - 2. Water consumption.
 - 3. Cooling measures.
 - 4. Acclimatization and recovery periods or practices.
- 5. Posting or distributing notices or materials relating to heat exposure which inform employees how to protect themselves from such exposure.
- 6. Implementation and maintenance of heat exposure programs or training.
- 7. Appropriate first-aid measures or emergency responses related to heat exposure.
- 8. Protections for employees who report that they have experienced excessive heat exposure.

101	9. Reporting and recordkeeping requirements.
102	(e) "Local government" means a county, municipality,
103	department, commission, district, board, or other public body,
104	whether corporate or otherwise, created by or under state law.
105	(f) "Subcontractor" has the same meaning as in s.
106	448.095(1).
107	(2)(a) The regulation of workplace heat exposure
108	requirements is preempted to the state. Any local law,
109	ordinance, resolution, regulation, rule, code, policy, or
110	charter amendment adopted before, on, or after the effective
111	date of this act which conflicts with this section is void and
112	<pre>prohibited.</pre>
113	(b) If the Occupational Safety and Health Administration
114	has not adopted by rule requirements regulating workplace heat
115	exposure by July 1, 2028, the Department of Commerce must adopt
116	by rule statewide workplace heat exposure requirements. Such
117	rules must be consistent with the standards of the Occupational
118	Safety and Health Administration in effect at the time the
119	Department of Commerce adopts its rules, modified as necessary
120	to reflect workplace heat exposure considerations specific to
121	this state. The Legislature must ratify such rules before they
122	take effect.
123	(3) Except as otherwise provided in this section, a local
124	<pre>government may not:</pre>
125	(a) Mandate or otherwise impose heat exposure requirements

Page 5 of 6

126	on an employer, an employee, a contractor, or a subcontractor.
127	(b) Consider or seek information relating to a
128	contractor's or subcontractor's heat exposure requirements in
129	any procurement for goods or services.
130	(4) This section does not limit the authority of a local
131	government to mandate or impose workplace heat exposure
132	requirements for the employees of the local government.
133	(5) This section does not apply if it is determined that
134	compliance with this section will prevent the distribution of
135	federal funds to a local government or would otherwise be
136	inconsistent with federal requirements pertaining to receiving
137	federal funds, but only to the extent necessary to allow a local
138	government to receive federal funds or to eliminate the
139	inconsistency with federal requirements.
140	Section 2. This act shall take effect upon becoming a law.
